7. Unknown. Leaseway is a holding company which was incorporated in Delaware on November 9, 1960. Since its incorporation, Leaseway has maintained its principal place of business in Cleveland, Ohio or its surrounding suburbs. To the knowledge of the undersigned, Leaseway has not since its incorporation owned or operated any facility in Toledo, Ohio or surrounding areas.
8. Leaseway's wastes consist of general office trash, which has been disposed of through various contractors in the Cleveland, Ohio area. Leaseway is unaware of any waste generated by it which was disposed of at either of the Sites.

Leaseway has conducted a diligent search for the information requested and has no knowledge, information or belief that Leaseway had any involvement with the Sites or any material found at the Sites. Since it did not generate, dispose of or transport any hazardous substance or other material to the Sites, Leaseway cannot have any liability with respect to the Sites. Nevertheless, Leaseway does not waive any objections it may have with respect to the scope of the Request for Information or the instructions to the Request for Information, or any defense to any action related to the Sites, and nothing in this letter shall be construed as an admission of liability or responsibility on the part of Leaseway.

We believe the foregoing accurately and adequately responds to the Request for Information. We will assume that U.S. EPA concurs with this conclusion unless and until we are advised in writing to the contrary.

Very truly yours,

Douglas K. Cooper
